We understand the Campground Host Program is a voluntary service program with a camp rate of \$15 per day per person (seven days a week) for subsistence. There are small additional compensation reimbursements for local mileage and propane tank refills. In addition, there is a waiver of all Refuge operated campground overnight fees while hosts are in voluntary service. No hourly wage compensation is paid to hosts for their services.

We understand that hosts are expected to provide their own RV's for accommodations and transportation. We understand there are no hookups for water, sewer, or electricity and that we provide our own system to generate electricity (i.e.- solar cells, generator, etc.) We understand that Refuge communication equipment is for Refuge business only and that it is desirable for us to have our own personal cell phone for personal calls.

We are in good physical health and maintain an active lifestyle.
